
PRESS RELEASE

Pothole Repair Continues

City of Lewiston street crews will continue repairing potholes on our main roadways, but the patching is not permanent. Once the weather warms up, crews will be able to establish a long-term fix.

“We want people to report potholes, but please know that once you have reported a pothole it may take us some time to get to it, because our crews will focus on the main streets first,” says Public Works Director Chris Davies. “We appreciate your patience. Your safety is our number one concern.”
