

# TYPICAL DISABLED PARKING STALL

## SIGN PLACEMENT

Striping shall be blue in color.

### Notes:

1. The international accessibility symbol as provided in section 49-410 Idaho Code shall be painted in each space.
2. Disabled parking stalls and access aisles shall not slope more than 2% in any direction.
3. If a curb ramp is required, it cannot project into the access aisle.
4. Each access aisle must connect directly to an accessible route.
5. Intent of this standard is to conform to ADA and ANSI requirements. These requirements shall take precedence over this standard.
